

Year 3 – Retrieval Activities

Weather and the Water Cycle

Complete all of the tasks!

1. Guess the keywords: _____ and _____

Definition 1: Water changes from a liquid to a gas and returns to the atmosphere as water vapour.

Definition 2: Water falls from the clouds in the form of rain, sleet, snow or hail.

2. Check and fix the mistakes:

A small proportion of Earth is covered in water.

Most of the Earth's water is in the lakes.

Condensation is when the sun heats the water up.

3. Name three bodies of water.

1.

2.

3.

4. Draw the water cycle:

Retrieve, Retrieve, Retrieve... Complete in your books please

What keywords did you use or learn last lesson?

State why the air rises near a mountain.
